

Base Oils & Lubricants - Product Specification Sheet

Finished lubricants and Group I base oils for automotive, industrial and marine applications.

Group I Base Oils

Property	SN150	SN500	BS150
Kinematic viscosity @ 40 C, cSt	28 - 33	95 - 105	470 - 510
Viscosity index	>= 95	>= 95	>= 90
Flash point (COC), C	>= 200	>= 230	>= 280
Pour point, C	<= -6	<= -3	<= +3

Indicative values per ASTM methods. Certificates of Analysis are issued per cargo.

Finished Lubricant Ranges

Range	Typical Grades
Automotive engine oils	SAE 15W-40, 20W-50, 5W-30, 5W-40 (API-graded)
Industrial oils	Hydraulic ISO VG 32-68, industrial gear, turbine & compressor oils
Marine lubricants	Trunk piston engine oils, marine cylinder oils, stern tube oils

Group II base oils quoted on request against demand.

Packaging Options

Format	Details
Steel drums	208 L, palletised
IBC	1,000 L intermediate bulk containers
Flexitank / bulk	Full parcels for blenders and distributors
